#Jenny

Finally I get this ebook, thanks for all these I can get now!

#Rio

Cool! I'am really happy

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

#Hun Tsu

wtf this great ebook for free?!

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

DETERMINATION AND CORRECTION OF THE LINEAR LATTICE OF THE AFS STORAGE RING*

V. Sapeev, L. Loney,
Argonne National Laboratory, Argonne, IL 60439, USA

Abstract
The AFS storage ring is a very complicated machine consisting of quadrupoles and 200 magnets, each powered separately. The quadrupoles and hexapoles correct orbit errors through the resonance. The main source of orbit errors is the dipole errors. The linear lattice of the AFS storage ring has been determined only through a very rough method. This method is not accurate enough to use a correct orbit correction. This paper presents a method to determine the linear lattice of the AFS storage ring. The method is based on the measurement of the orbit errors. The method is based on the measurement of the orbit errors. The method is based on the measurement of the orbit errors.
